REGISTER BUTTON

Once the student application has been approved, the warning banner will go away - and a "Register" button will appear for them on the navigation bar.

CONTINUING STUDIES ~ STUDENTS

The registration page allows students to click on a course to see the description, location, level, and instructors. It will also include the Course Subject and Number, which will always be unique, even between undergraduate and graduate levels of the same course.

Currently, each course will need to be paid for individually. If a student wants to take more than one course, they will need to register and pay for each one individually.
