

2019 Summer Noyce Internships

Applications open March 25th – April 12th

Requirements include being a current MSUM student who is a U.S citizen or a permanent resident alien, must have taken a science or math course, and preference will be given to science or math majors at the freshman and sophomore levels.

Between 8-12 interns will be hired to assist area teachers and other educators in science, math, engineering, and technology areas as teaching assistants or tutors. Each internship will be approximately 100 hours and will be paid at the rate of \$10/hour.

You are to rank your preference based on your availability and interests in the following:
