

Topic: Self Enrollment in Groups

In D2L Brightspace , instructors can leave groups open for students to self-enroll in. This will allow you to join groups of students with which you want to be grouped up.

Start off by going into the **Groups** page under **Communication** in the navigation bar.

Under the **Groups** heading, there will be a list of all the groups that are set up for self-enrollment. You can choose which group you would like to be a part of by clicking **Choose Group** next to the group name.

Once you choose your group, a window will appear asking which group you would like to join. You may have the option to pick between more than one group depending on how your instructor has the group set up.
