

## Topic: Respondus - Getting Started

### What is Respondus?

Respondus is a desktop application that faculty can use to create quizzes and exams.

### Why use Respondus?

- Create web-based or paper quizzes/exams.
- Create a bank of quiz/exam questions for use within D2L Brightspace including all common question types (multiple choice, true or false, long answer, matching, short answer, multi-select, ordering, fill in the blank).
- Import questions you create with MS Word.
- Import questions from a publisher test bank online.
- Import questions made for a variety of Learning Mgmt Systems (D2L Brightspace, Moodle, Blackboard, etc.)

### Who can download / Use Respondus?

Respondus can only be installed on university issued computers running Microsoft Windows. At this time Respondus is not available on the Macintosh platform.

### Installation and Setup

To obtain information about downloading and installing Respondus:
